Hawk Batteries are produced at state of the art manufacturing plant in India with latest AGM technology, specially designed grid, and active material to offer more life cycles. They are VRLA Sealed Maintenance Free batteries for power backup and solar energy applications, apart from being used in other General purpose applications. These Batteries have excellent performance at high current power discharge. Please Visit, www.powernsun.com for salient features and technical specifications.

Product Features

- Voltage class: 12V
- Temperature range: -20°C ~ 60°C
- Low self-discharge rate: ≤ 3%month
- High sealed reaction efficiency: ≥ 99%.
- Good high rate discharge performance.
- Terminal sealing: double sealing technics.
- Sealed and maintenance free operation.
- Non-Spillable construction design.
- Safety valve installation for explosion proof.
- Structure: Compact design, low internal resistance.
- Vent system: gases can be vented through filter.
- Separator: using improved AGM separator, to increase deep cycle life.
- Battery case: made of high strength ABS(UL94-HB) and UL94-V0 is optional.
- High quality and high reliability, backed up by the product performance warranty.
- Can be used in various applications as power bank.

Main Parameters

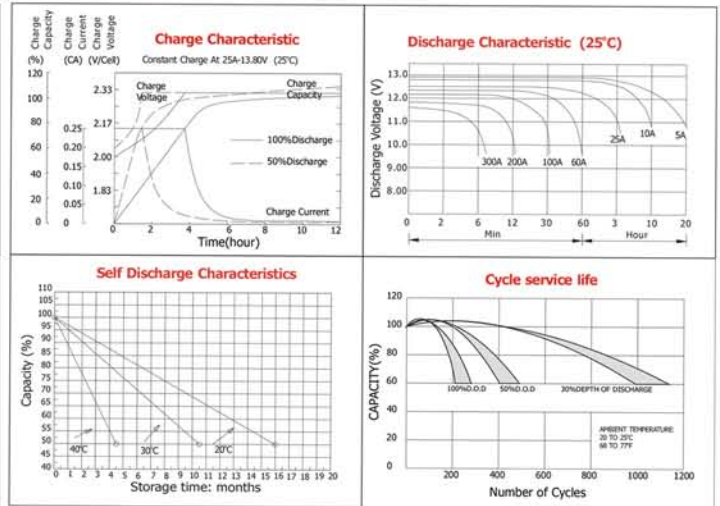

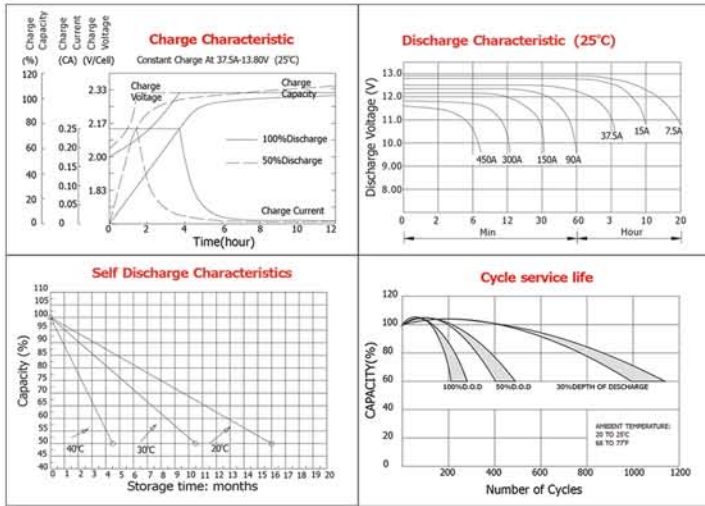

Model	Voltage (V)	Capacity (AH)	Weight (Kg)	Terminal	Dimension (LxWxH)(TH) (mm)	Internal Resistance (mΩ)
DC12-100	12	100	29.2	Lead	330*172*215(221)	5
DC12-150	12	150	44	Lead	485*172*240(240)	4
DC12-200	12	200	60	Lead	522*243*220(245)	4
